EDUCATION

Washington University in St. Louis

St. Louis, MO

Master of Science, Computer Science

Aug 2024 - May 2025

- Project Topic: “Precision, Simplicity, Appeal: Decoding the impact of visual design in public service announcements”
- Advisor: Professor Alvitta Ottley

Bachelor of Science, Computer Science

Aug 2024 - May 2025

- Minors in Psychology and Human-Computer Interactions

Relevant Coursework

Data Structures and Algorithms	Logic and Discrete Mathematics	UX Research Methods/Design
Introduction to Data Science	Object-Oriented Software Lab	Introduction to AI
Rapid Prototype/Creative Coding	Analysis of Algorithms	Human-Centered Design
Advanced Visualization	Visual Principles for the Screen	System Software

Awards & Honors: Dean’s List (All semesters), UAA All-Academic (2023, 2024, 2025), WashU Hackathon (3rd place)

SKILLS

- **Languages:** JavaScript, TypeScript, HTML, CSS, Swift, C, C++, Python, PHP, SQL, Assembly
- **Frameworks & Libraries:** React, Node.js, Express, AJAX, jQuery, D3.js, OpenCV
- **Tools & Platforms:** Xcode, GitHub, Figma, MySQL, Arduino, REST APIs, GitHub Pages
- **Spoken Languages:** English (Native), Mandarin (Native)

RESEARCH / PROJECTS

Sensory and Ambient Interfaces Lab

Washington University in St. Louis

Research Assistant

July 2023 - May 2025

- Built interactive, web-based educational modules to teach communities about green energy initiatives.
- Designed UI mockups and implemented fullstack features across frontend and backend systems.
- Collaborated with a 10-person team, bridging communication between design and development.

Computer Vision Swimming Lap Counter

Washington University in St. Louis

Class project with classmate

Aug 2024 - Dec 2024

- Developed a computer vision system using OpenCV to accurately count swim laps by tracking swimmers via colored swim caps.
- Collaborated with a real-world client to address limitations of commercial wearables, prototype solutions, and deliver a functional proof of concept.

EXPERIENCE

Washington University in St. Louis

St. Louis, MO

Head Teaching Assistant - Introduction to Computer Engineering

Aug 2024 - May 2025

- Managed and mentored 70+ TAs; assigned schedules, responsibilities, and ensured smooth course operations.
- Coordinated assignment and exam logistics, including rubric creation, grading workflows, and grade release.
- Collaborated with instructors to design new coursework and resolve grading disputes.
- Provided technical support on Arduino C, circuit wiring, and assembly language to TAs and students.

Teaching Assistant - Introduction to Computer Engineering

Jan 2022 - May 2024

- Supported 1,600+ students across 6 semesters through weekly office hours, in-class instruction, and exam grading.
- Taught core concepts in embedded systems, including Arduino programming and assembly.
- Delivered one-on-one and group support to reinforce student understanding and project success.

Greenheart Partners

Remote

Full Stack Software Developer

June 2022 - July 2022

- Built interactive, web-based educational modules to teach communities about green energy initiatives.
- Designed UI mockups and implemented fullstack features across frontend and backend systems.
- Collaborated with a 10-person team, bridging communication between design and development.

CAMPUS ACTIVITIES

NCAA Division III Varsity Swimmer

St. Louis, MO

Washington University in St. Louis

Aug 2021 - May 2025

- Cultivated teamwork, resilience, and time-management skills while balancing 20+ weekly training hours with full academic load
- Represented WashU at swimming competitions, including the UAA Swimming & Diving Conference Championships
